has been registered by 2probit.eu

General Nonprocessing Area Product

This product is approved for use in areas where food is not processed or stored. The product should not release any odour or fragrance into food processing or storage areas. All objects treated with the substance must be thoroughly rinsed and cleaned with potable water before entering the food processing or storage areas again.

Use the product according to the manufacturer's instruction and applicable label directions. The amount used should be the minimum required to accomplish the desired technical effect.
