

Description

C1 Food Degreaser

Special degreaser formulated for the food, pharmaceutical, and cosmetics industries.

Dissolves oils, greases, lubricants, adhesives, and other contaminants from any metal surface. The product is colorless and odorless.

Features

- High flashpoint of 61°C.
- Dissolves oils, greases, lubricants, tar and adhesives.
- Excellent penetration to remove dirt and moisture.
- Safe on all types of surfaces.
- Neutral product.
- Free of chlorinated solvents.
- Does not corrode metals.
- Aerosol equipped with a 360° valve and CO2 propellant, providing an active product content of 98%.

Applications

Specially formulated to dissolve and remove oils, greases, lubricants, tar, adhesives and other contaminants from any type of surface. It evaporates in a controlled manner for excellent cleaning, leaving no residue.

- Engines.
- Brakes.
- Dies.
- Chains.
- Gears.
- Bearings.
- Cables.
- Guides.

How to use

- Apply directly to the part to be cleaned and let it sit.
- Remove with a cloth if necessary or let it air dry until it evaporates completely.

Certifications/Specifications

- **C1 Certified** for its use in food industry.
